

Accounting and Payroll Specialist

PROGRAM OBJECTIVES

Delivered in a flexible hybrid format, the Accounting and Payroll Specialist Diploma Program combines live, instructor-led online classes with self-paced study periods. Students benefit from dedicated faculty support, interactive learning tools, and an educational experience designed to prepare them for success in today's evolving business landscape.

The curriculum provides a strong foundation in essential accounting and payroll principles, including Introduction to Accounting with QuickBooks, Intermediate Accounting with Sage 50, Payroll Compliance Legislation, Payroll Fundamentals 1, and Payroll Fundamentals 2. Courses such as Interpersonal Communication, Client Relations, and Diversity in the Workplace help students build leadership skills and emotional intelligence to thrive in diverse professional environments.

Graduates are well-positioned to pursue the Payroll Compliance Professional (PCP) designation from the National Payroll Institute, enhancing their professional credibility and expanding career opportunities.

The program concludes with an 8-week field placement, giving students the opportunity to apply their skills in a real-world business setting and gain valuable industry experience.

DESIGNATION

Successful graduates of this program will meet the educational requirement of achieving the appropriate passing grades (a minimum of 65% overall and earn at least 65% on each of the final exams in Payroll Compliance Legislation, Payroll Fundamentals 1 and Payroll Fundamentals 2) to be eligible for the Payroll Compliance Professional (PCP) designation issued by the National Payroll Institute (NPI). Students must also achieve 65% in Introduction to Accounting with QuickBooks, and Intermediate Accounting with Sage 50 to use them as transfer credits for the NPI designation. The designation is nationally recognized as the standard of excellence for payroll training. To receive full

designation, all PCP candidates must obtain or maintain NPI membership, either through an individual membership, or through a company that has a business membership. Further, "NPI" requires one year of experience (within five years of starting the Payroll Compliance Legislation course) defined as "paying employees accurately and on time, in compliance with legislative requirements, contributing to the full annual payroll cycle." Lastly, candidates need to complete an online Designation Declaration. Students will be eligible to submit the PCP Work Experience Requirement Application (PCP-WERA) after completing the PCP courses including transferring the Introduction to Accounting course credit into their National Payroll Institute files, which is a requirement. Link to the National Payroll Institute website; <http://www.payroll.ca/>

CAREER OPPORTUNITIES

Careers in finance, banking, payroll, personnel, and accounting are available to those successful graduates who have the right combination of proper academic skills, personal drive, and dedication.

PREREQUISITES

1. Student has Grade 12 or equivalent.
2. Mature students must be 19 years of age and pass a qualifying test.
3. The approved qualifying test for this program is the Wonderlic test. A passing score for this program is 15.

GRADUATION REQUIREMENTS

A student must obtain an overall grade, in each module of at least 60% (NPI courses are exceptions, as they require a minimum grade of 65%) in order to graduate and receive a diploma. Students must meet the internship requirements as detailed on this outline.

Accounting and Payroll Specialist

COURSE DESCRIPTIONS

Student Success Strategies

This course stresses the importance of developing non-technical skills to enhance personal, academic, and career success. The course will address strategies that are important for all adult learners, such as managing finances, maintaining health and wellness, understanding learning styles, setting goals, and honing practical study skills (such as memory, reading, and test-taking techniques). In addition, this course emphasizes strategies needed to succeed in your program, such as navigating technology efficiently, interacting and engaging with peers and facilitators/instructors, and managing learning time and space.

Digital Literacy for Professionals

This course introduces the fundamental concepts and principles of learning and working in a digital environment. This course will cover the following elements: using devices and handling information, creating and editing information, communicating and collaborating, and being safe and responsible online.

Career Planning and Preparation - Level 1

This module will introduce you to and provide practice in using the tools required for a successful job search. The concepts covered in this module will help you maintain a career-focused approach throughout your studies so that you are better prepared to conduct a job search after graduating. Specifically, you will learn how to identify your soft and hard skills and how to articulate your abilities in a clear and concise Elevator Pitch that will appeal to employers and resonate with industry contacts. You will learn about the job search resources available to you including using career websites, creating LinkedIn profiles, accessing the “hidden” job market, and networking. You will examine sample résumés and cover letters and begin the process of creating your own professional résumés and cover letters that align with current conventions for content, organization, and formatting. You will also learn about the role of references, thank you letters, workplace philosophies, and strategies for success including maintaining a professional image and using proper etiquette when communicating with potential employers and industry contacts.

Interpersonal Communication

Effective interpersonal communication is vital for the success of any organization. It impacts working relationships, productivity, and a variety of other business activities. This course introduces the concepts of effective interpersonal communication in the workplace, considering internal and external professional relationships. You will also learn about telephone etiquette, which will prepare you to answer calls with confidence and professionalism, respond to customer/client inquiries effectively, and handle customer/client complaints. You will leave the course prepared to navigate the complexities of interpersonal communication with colleagues and clients.

Client Relations

In this course, you will learn the fundamentals of how a strong relationship with clients is developed and maintained. Professionalism, the importance of living up to obligations, and the various forms of prompt and attentive communication are discussed. The course will also provide you with the skills you need to articulate organization image and how to identify and adapt to specific client behavior styles and how to measure and take corrective actions to provide client satisfaction and ensure positive relations. The course also introduces practical techniques needed to deal with clients that are angry and upset and explains the significance of maintaining and encouraging the loyalty of clients.

Accounting and Payroll Specialist

Diversity in the Workplace

This course introduces diversity and its strengths in the workplace. Among the topics covered are the strengths of diversity, its occasional challenges, how to manage diversity in the workplace, and the value of diversity training. Diversity in group dynamics is also addressed, with an emphasis on the strengths of a heterogeneous group and types of diversity.

Microsoft Word

This Microsoft Office Word course is created for you to build and validate the skills businesses need to succeed in today's information economy. It also provides you with the skills and knowledge you need to use Microsoft Office Word effectively in all aspects of your personal and professional lives. Word is the world's most popular word processing software. Learning how to create, edit, format and print documents, enhance work with formatting, use bullets and numbering, add simple borders, tables, headers/footers, organizing data columns, and styles, are the foundational skills needed to perform in many positions. This course is computer intensive and demands basic computer proficiency and a basic understanding of word processing software. The course combines Theory/demonstration by an instructor with readings, trainings, projects, and a final exam for you to work on in a simulation-based environment. You are expected to ensure you meet proficiency requirements for working in this environment.

Microsoft Excel

This Microsoft Office Excel course is created to help you build and validate the skills needed to succeed in today's economy. It will also provide you with the skills and knowledge you need to use Microsoft Office Excel effectively in all aspects of your personal and professional lives. Excel is the world's most popular spreadsheet software. Whether you are managing a household or running a small business, Excel will help you develop useful techniques to help business processes. This course is computer intensive and demands basic computer proficiency and a basic understanding of spreadsheet software. You are expected to decide to meet proficiency needs as necessary.

Microsoft PowerPoint

This course will show you how to create and modify basic presentations by using Microsoft Office PowerPoint. You will explore the PowerPoint environment and create a presentation; you will format text on slides to enhance clarity and visual appeal; and you will also add and modify graphical objects in order to finalize and deliver a presentation. This course is computer intensive and demands basic computer proficiency and a basic understanding of PowerPoint software. You are expected to ensure you meet proficiency requirements for working in this environment.

Microsoft Outlook

This Microsoft Outlook course builds and validates the skills businesses need to succeed in today's information economy. It will also provide you with the skills and knowledge you need to use to effectively manage emails, contacts, calendars, and tasks. Outlook has become the corporate standard electronic personal organizer. These are the foundational skills needed to communicate using Outlook in a variety of positions within an organization. This course is computer intensive and demands basic computer proficiency and a basic understanding of email software. You are expected to make arrangements to meet proficiency needs.

Accounting and Payroll Specialist

Business Communication

This course is designed to provide a basic understanding of communication skills in business environments. Focus will be placed on both written and spoken communications. You will review the basic writing process with emphasis on the mechanics of writing. You will also learn the importance of effective spoken communication, deliver an oral presentation, and participate in a mock meeting.

Introduction to Accounting with QuickBooks

This course introduces basic accounting concepts and procedures. This course addresses double-entry accounting, analysis of source information, classes of transactions, and the accounting cycle. Using these critical concepts, accounting skills are applied and integrated to record transactions using proper procedures and forms in both a manual and computerized accounting system, QuickBooks.

Intermediate Accounting with Sage 50

This course continues the exploration of accounting procedures in payroll, petty cash, and bank reconciliations. Central to this course is the merchandising firm and its accounting cycle, appropriate valuation of inventory, and cost of goods sold calculations. This material will be applied in both a manual and computerized accounting system, Sage 50.

Payroll Compliance Legislation

This course covers compliance responsibilities that affect organizations, comprehending relevant payroll-related legislation and effectively communicating this information to all stakeholders. Finding and applying the relevant information to a variety of scenarios for individual pay are integrated into the application of federal and provincial legislation to payroll including the Canada Pension Plan, Employment Insurance, Income Tax, Employment Standards Legislation, Workers' Compensation Acts, and Quebec-specific legislation.

Payroll Fundamentals 1

This course assesses the methods for paying employees with regular and non-regular earnings. The calculation of allowances, benefits, and commissions and determination of the impact of non-statutory deductions on employee pay are addressed. This course develops understanding of the role of the payroll department in hiring and terminating employees, including the completion of Service Canada's Record of Employment.

Payroll Fundamentals 2

This course focuses on the proper recording of payroll information and using payroll technology; Federal and Non-Statutory remittances and reconciliations; Quebec Tax processes; year-end procedures; Provincial, Northwest Territories and Nunavut medical and tax premiums; remittances, reconciliations, and Workers Compensation. All of these skills are covered to provide the knowledge required for Payroll Designation by the National Payroll Institute (NPI).

Career Planning and Preparation - Level 2

This module builds on concepts and skills introduced in the Career Planning and Preparation Level 1 module. In this subsequent module, you will update and refine your résumé and LinkedIn Profile. You will continue writing cover letters and learn the value of customizing cover letters to specific job postings. You will have the opportunity to apply this knowledge as you conduct a job search and write a cover letter.

NOTE: In order to continuously improve our programs, Eastern College reserves the right to modify programs at any time. Program delivery order may vary depending on program start date. This diploma program may not be available at all campuses.

Accounting and Payroll Specialist

tailored to an ideal job post. Through research, you will create a list of top employers and target current industry opportunities. You will learn about current methods for applying to job postings using technology. You will also gain an understanding of the job interview process, typical interview questions and possible responses, and expectations of both the interviewer and interviewee. In addition, you will engage in practical application of the interview process through role-play. Topics such as negotiating salary, self-management, and on-the-job success for placements and post-graduate employment will be also cover.

Accounting and Payroll Specialist Internship

On successful completion of the classroom hours of this program, you will be placed in a 200-hour internship at an outside organization. You will have the opportunity to apply their newly developed knowledge and skills in a real-world environment.
