### **Purpose**

The College has a duty to ensure the safety and security of its students, employees, visitors, and property at all times. The ability to identify an individual using lanyards and identification cards (ID) can help to ensure the safety and security of all. It is the goal of the College therefore to provide quality lanyards, identification cards, and tags consistent throughout the entire College to each student, employee, and visitor.

Against this background, this policy seeks to outline the terms and conditions for which lanyards, identification cards and tags are issued for the purpose of identification and to facilitate the safety and security of the College community (including students, employees, and visitors) and College property.

### **Scope**

This policy applies to all College students, employees, delivery partners, affiliates, volunteers, contractors, and visitors on a College Campus.

This policy **does not apply** to College students or employees in Online or Remote learning environments in that a physical identification card or lanyard is issued to these individuals.

### **Definitions**
